

**PAIRS WELL WITH:** LH 5052 RR/LFY & LH 5199 SS/LFY

## POSITIONING & MANAGEMENT

This is Latham's earliest version of our leafy, silage-specific hybrids. Excellent late-season plant health and growth make this robust hybrid a top choice for producers, who need an earlier maturing hybrid for northern production or late-planted forage needs. The hybrid gets to harvest moisture in timely fashion and its late-season plant health extends your silage harvest window. It's not intended for use as a grain hybrid.

Highly Productive & Irrigated Fields	2
Moderately Productive/Average Fields	1
Less Productive/Stressed Fields	1

## HYBRID ADVANTAGES

- New genetics with native drought tolerance
- Tremendous staygreen and drought tolerance
- Pink cob hybrid with huge ears
- Exceptional tonnage with 12 leaves above the ear

## AGRONOMIC CHARACTERISTICS

Emergence	2.0	Test Weight	2.5
Flowering For Maturity	Moderately Late	Drought Tolerance	1.5
Early Vigor	2.3	Foliar Fungicide	Recommended
Stalk Strength	2.2	Herbicide Sensitivity	None Known
Root Strength	2.2	Suggested Population	24-30
Stay Green	1.5	Corn-on-Corn	3.0
Drydown	3.0		

## PLANT CHARACTERISTICS

Plant Height	Tall	Cob Color	Pink
Silage Rating	1.0	Husk Cover	Long
Ear Height	Medium High	Shank Length	Medium Long
Ear Type	Semi-Flex	Leaf Angle	Conventional
Number of Kernel Rows	18-20		

## DISEASE RATINGS

Goss's Wilt	2.0	Anthracnose Stalk Rot	
Common Rust		Eyespot	
Southern Leaf Blight		Gray Leaf Spot	
Northern Leaf Blight			

Herbicide Sensitivity: PI = Pigment Inhibitors  
 Pre PI = Pigment Inhibitors applied Pre-Emergence  
 SU = Sulfonylureas, GR = Growth Regulators
