

PAIRS WELL WITH: LH 3937 VT2 PRO & LH 4454 VT2 PRO

POSITIONING & MANAGEMENT

This product features genetics that offer outstanding yields. Big, girthy ears have the ability to maintain ear size even at higher plant populations. Although adapted across all yield environments, it's best when kept on your most productive soils at higher plant populations. Very good early vigor gets this hybrid off to a fast start with early fall drydown. It comfortably moves south out of its zone.

Highly Productive & Irrigated Fields	1
Moderately Productive/Average Fields	1
Less Productive/Stressed Fields	2

HYBRID ADVANTAGES

- King of consistency across all environments!
- High yields with fast drydown
- Responds to higher populations
- Good southern movement

AGRONOMIC CHARACTERISTICS

Emergence	1.5	Test Weight	3.0
Flowering For Maturity	Moderately Early	Drought Tolerance	2.0
Early Vigor	2.0	Foliar Fungicide	Highly Recommended
Stalk Strength	2.0	Herbicide Sensitivity	None Known
Root Strength	2.0	Suggested Population	32-36
Stay Green	3.0	Corn-on-Corn	2.0
Drydown	2.5		

PLANT CHARACTERISTICS

Plant Height	Medium Tall	Cob Color	Pink
Silage Rating	1.0	Husk Cover	Medium
Ear Height	Medium	Shank Length	Medium
Ear Type	Semi-Flex	Leaf Angle	Semi-Upright
Number of Kernel Rows	16-18		

DISEASE RATINGS

Goss's Wilt	3.0	Anthraxnose Stalk Rot	2.2
Common Rust	3.0	Eyespot	2.3
Southern Leaf Blight	2.8	Gray Leaf Spot	3.0
Northern Leaf Blight	2.0		

Herbicide Sensitivity: PI = Pigment Inhibitors
 Pre PI = Pigment Inhibitors applied Pre-Emergence
 SU = Sulfonylureas, GR = Growth Regulators
