HYBRID ADVANTAGES

- Extremely high yield potential; multi-year F.I.R.S.T. Trials Champion!
- Very good Gosss Wilt score
- Good ear flex for variable planting populations
- Dont need to overpopulate this one

Ear Height: ML= Medium Low, M= Medium, MH= Medium High
Ear Type: F= Flex, D= Determinate

POSITIONING & MANAGEMENT

This medium-tall hybrid with semi-flex ears brings strong yield potential across a wide range of environments. It moves north or south out of zone and can handle a wide range of planting populations due to its ear flex. This is an excellent hybrid under irrigation, but it handles tougher soils. It carries very good tolerance to Gosss Wilt, Eye Spot, as well as Northern and Southern Leaf Blights.
