

PAIRS WELL WITH: LH 5725 VT2 PRO and LH 6175 VT2 PRO

POSITIONING & MANAGEMENT

This medium-tall hybrid with semi-flex ears brings strong yield potential across a wide range of environments. It moves north or south out of zone and can handle a wide range of planting populations due to its ear flex. This is an excellent hybrid under irrigation, but it handles tougher soils. It carries very good tolerance to Goss Wilt, Eye Spot, as well as Northern and Southern Leaf Blights.

Moderately Productive/Average Fields	2
Less Productive/Stressed Fields	3

HYBRID ADVANTAGES

- Extremely high yield potential; multi-year F.I.R.S.T. Trials
- Very good Goss Wilt score
- Good ear flex for variable planting populations
- Don't need to overpopulate this one
